

IT'S UN-AMERICAN!

Corporations Pernod Ricard and Absolut Vodka don't care about values.

There are gaps in this country, deep chasms that need to be bridged, between rich and poor, between Government and the people, between security and feeling safe about the future, between what is real and what is not. Between right and 'Absolut' wrong.

Help fight the power that targets the powerless and support the lives of those who ABSOLUTELY need it most.
